EXPERIENCE

Full Stack Developer | Sysplex Solutions OPC

JUNE 2023 - PRESENT

- I've been given the responsibility to work on different projects, each with its own methods, technologies, and requirements for app development.
- I improved existing API endpoints and made new ones using MySQL.
- Implemented UI designs and developed applications using various libraries.
- Collaborated closely with internal and external teams to carry out assigned tasks.

Contract Engineer | Global State Resort

MAY 2022 - NOV 2022

- Involved in the bidding process of projects.
- Coordinate closely with other team members to ensure that every item shown on plans will not be missed or doubled during the measurement activities.
- Award projects to the bidders with complete scope of work and with propose appropriate budget based on thorough evaluation and estimate.
